DECORATION DAY
MEMORABLE HERE

(Continued From First Page)

days added zest to the occasion.

The speaker of the day was Rev. S. F. Ross of Wadsworth, well-known to the people of Medina, where he formerly served as pastor of the Methodist church. Before beginning his address Rev. Ross had carefully arranged notes from which to speak. But upon being presented by the officer of the day, P. C. Crawford, Rev. Ross, inspired by the sublimity of the hour, disregarded memoranda, and plunged into an address that for fervor and eloquence has rarely been heard in Medina. Rev. Ross is a one hundred per cent. American and with a giant physique and a voice of power, he was able to drive home to his hearers the true purpose of Memorial day—a forceful reminder of what the people of America have stood for and still stand for.

There were no accidents reported during the day, no disorderliness, and it is no exaggeration to state that the 1921 Memorial Day celebration in Medina, from every viewpoint, was of surpassing excellence.

Litchfield

LARGE WOOL SHIPMENT

The second consignment of wool made by the wool growers last Friday was the largest shipped out of this county in one day since the organization has been operating. Over 100 shippers consigned, sending out 31,639 pounds.

The largest single consignment was made by E. T. Clapp of Chatham, having 2,239 pounds. Very few memberships are being sold this year, nearly all the shippers taking out stock in the wool warehouse. To date 47,650 lbs. have been consigned. Watch these columns for the date of the next shipment.

EARLY SHEARING IS FAVORED

Lambs Thrive Better If Mother Is Not Compelled to Suffer From Carrying Heavy Coat of Wool.

Practice early shearing. Sheep shorn early will thrive better and the lambs will also do better if the mother is not compelled to suffer from carrying a heavy coat of wool in hot weather. There is but little gain in the weight of the wool after the weather gets warm, not enough to make it worth while to leave it on, when the comfort of the animal is considered.

HERE IS THE SHINGLE

You find them on the finest 20, 30 and 40 thousand dollar houses as well as the 4, 6, and 8 thousand dollar houses.

They are popular on the 40 thousand dollar houses because there is no more naturally beautiful material to put on a roof than the attractive Indian red or the artistic sage green slate. The low price makes them possible on less costly homes.

And they wear better.

Neither wind, nor walking on them, nor fire nor old age, nor the blow of a hammer will cause them to crack.

The asphalt in them protects nail-heads from rusting off and shingles coming loose.

The slate surface makes them spark-proof. They satisfy insurance and building law requirements.

Finally—they stay flat.
